## Free Will and the Science of the Brain:

2 of 2 review helpful Dry but life changing By Seen On Radio This was a tough read because it is highly technical and specific but I am so very happy that I took the time to get through it and learn so much about the mind and the brain I believe that knowing and understanding more about free will where it comes from and what it really is makes me a better neighbor friend parent and spouse Scientifically "Big questions are Gazzaniga's stock in trade" — New York Times "Gazzaniga is one of the most brilliant experimental neuroscientists in the world" — Tom Wolfe "Gazzaniga stands as a giant among neuroscientists for both the quality of his research and his ability to communicate it to a general public with infectious enthusiasm" — Robert Bazell Chief Science Correspondent "Gazzaniga is a towering figure in contemporary neurobiology Who's Who's in Charge is a joy to read" — Wall Street Journal "A fascinating accessible and often humorous read for anyone with a brain And a must read"
