**By David Hodgson : Rationality + Consciousness = Free Will (Philosophy of Mind)** self consciousness philosophical work on self consciousness has mostly focused on the identification and articulation of specific epistemic and semantic people with online papers in philosophy compiled by david chalmers nb this page is no longer regularly updated its function has been taken over by the list of Rationality + Consciousness = Free Will (Philosophy

of Mind):

In recent years philosophical discussions of free will have focused largely on whether or not free will is compatible with determinism In this challenging book David Hodgson takes a fresh approach to the question of free will contending that close consideration of human rationality and human consciousness shows that together they give us free will in a robust and indeterministic sense In particular they give us the capacity to respond appositely to feature rich
