**By Matthew Blakeway : The Logic of Madness: A New Theory of Mental Illness (The Logic of Self-Destruction)**

how do destructive people become constructive how do out of control people become fruitfully self controlled how do rigid people become flexible the power born of madness trope as used in popular culture the strength of a madman is proverbial and with good reason madness allows people to brush The Logic of Madness: A New Theory of Mental Illness (The Logic of Self-Destruction):

A radical reappraisal of mental illness Madness melancholy insanity lunacy craziness loco a dizzying litany of words are used to describe a condition we don't truly understand Despite centuries of scientific study many mental disorders remain untreatable and their causes not understood The consequences are terrible both in human suffering and the economic impact of millions of unproductive or destructive people In his second book in a series Matthew Blakeway contends that madness is logical in structure This assertion derives from his view see The Logic of Self Destruction that our brains are biological computers with algorithms f
