11 of 12 review helpful Finally a human account of the AT By iain mclennon I found Mingo s narrative refreshingly

enlightening I have ready many of the books available about the AT PCT CDT BBC NBC et al and while many are very personal accounts they either contain too much information Bryson or linger on reasons for taking a long hike Strayed and that s not what I found with Stepping Wild This is almost a Literary Awards From the Author Thank you for reading Stepping Wild I hope this helps you share in my experiences while thru hiking the AT Many have said it has helped them understand what to expect on the AT as they prepare to hike
