The book chronicles the fictitious travels and pedagogy of Zarathustra. The name of this character is taken from the ancient prophet usually known in English as Zoroaster, the Persian founder of Zoroastrianism. Nietzsche is clearly portraying a new or different Zarathustra, one who turns traditional morality on its head. Zarathustra has a simple characterisation and plot narrated sporadically throughout the text. It possesses a unique experimental style, one that is about the author Friedrich Wilhelm Nietzsche (15 October 1844 – 25 August 1900), a German philologist, philosopher, cultural critic, poet, and composer. He wrote several critical texts on religion, morality, contemporary culture, philosophy, and science.
