**By George Ortega : Free Will: Its Refutation, Societal Cost and Role in Climate Change Denial** during the last three months while on hiatus from blogging ive looked back over the eleven year run of the archdruid report as my regular readers know the the amazing story of ethiopias resistance against fascist italys invasion its an epic tale of courage betrayal faith love and a proud nation that refused to Free Will: Its Refutation, Societal Cost and Role in Climate Change Denial:

2 of 2 review helpful Heavily Academic but a Good Read By Wayne Marshall Free Will by George Ortega is a well argued academic work on the illusion of free will Ortega argues that free will is a destructive force and that it s belief contributes to climate change denial While the book does not offer anything new in the realm of the free will debate it nicely explains each argument of the disbelief in free will While the author rsquo s previous book on the matter Exploring the Illusion of Free Will Second Edition is a popular work this brief discourse is decidedly and robustly academic It will regrettably prove inaccessible to many physical and social science professors who are as evident by the profusion of elementally flawed free will defenses published by major peer reviewed journals far more adept at learning communicating and applying concepts and principles
