By **Nicholas Rescher** : **Free Will: A Philosophical Reappraisal** Free Will: A Philosophical Reappraisal:

3 of 3 review helpful Superb well written thorough The best overview of free will s issues for philosophy ever By Matthew Rapaport This book has been out on Kindle for over a year and a half now and I am its first reviewer I

suspect this has something to do with its 40 price which is frankly obscene for a Kindle book My opinion here casts no aspersions on for it is the book s publisher who sets the price This is a This second edition of Free Will presents a complete treatment of the history of the debate over whether humans have free will It analyses the conditions under which actions must be characterized as unfree and explores whether recent findings in brain physiology counter indicate free will Nicholas Rescher leads the reader through a conceptual web of distinctions that taken together provide a satisfying contribution to philosophical thought on free will Idquo Rescher is a distinguished historian of pragmatic philosophy rdquo mdash Cornell West Princeton University Idquo An amazingly prolific American philosopher whose work is characterized by an unusually wide range of sympathy and information r
